

# Recent Advances in Underwater Basket Weaving

André Lauren Benjamin

No Institute Given

**Abstract.** The abstract should briefly summarize the contents of the paper.

## Introduction

**Main Contributions** Please note that the first paragraph of a section or subsection is not indented. The first paragraph that follows a table, figure, equation etc. does not need an indent, either.

Subsequent paragraphs, however, are indented.

## Related Work

### Basket Weaving

*Underwater Basket Weaving*

Only two levels of headings should be numbered. Lower level headings remain unnumbered; they are formatted as run-in headings.

The contribution should contain no more than four levels of headings. Table 1 gives a summary of all heading levels.

## Recent Advances from the Mariana Trench

Displayed equations are centered and set on a separate line.

$$x + y = z \tag{1}$$

**Theorem 1.** *This is a sample theorem. The run-in heading is set in bold, while the following text appears in italics. Definitions, lemmas, propositions, and corollaries are styled the same way.*

*Proof.* Proofs, examples, and remarks have the initial word in italics, while the following text appears in normal font.

For citations of references, we prefer the use of square brackets and consecutive numbers. Citations using labels or the author/year convention are also acceptable. The following bibliography provides a sample reference list with entries for journal articles<sup>2</sup>, an LNCS chapter<sup>3</sup>, a book<sup>4</sup>, proceedings without editors<sup>1</sup>, and a homepage<sup>5</sup>. Multiple citations are grouped<sup>2-4, 1,2,4,5</sup>.

Table 1: Table captions should be placed above the tables.

| Heading level     | Example                                     | Font size and style |
|-------------------|---------------------------------------------|---------------------|
| Title (centered)  | <b>Lecture Notes</b>                        | 14 point, bold      |
| 1st-level heading | <b>1 Introduction</b>                       | 12 point, bold      |
| 2nd-level heading | <b>2.1 Printing Area</b>                    | 10 point, bold      |
| 3rd-level heading | <b>Run-in Heading in Bold.</b> Text follows | 10 point, bold      |
| 4th-level heading | <i>Lowest Level Heading.</i> Text follows   | 10 point, italic    |

## Experiments

### Experimental Setup

### Experimental Results

## Discussion

## Conclusion

Of course, authors have complete freedom on how they choose to structure their paper. Section headers from Introduction up to and including Conclusions are completely up to the discretion of the authors; use whichever structure you see fit. Title, Abstract, the credits environment, and References, however, are mandatory.

**Acknowledgments.** A bold run-in heading in small font size at the end of the paper is used for general acknowledgments, for example: This study was funded by X (grant number Y).

**Disclosure of Interests.** It is now necessary to declare any competing interests or to specifically state that the authors have no competing interests. Please place the statement with a bold run-in heading in small font size beneath the (optional) acknowledgments, for example: The authors have no competing interests to declare that are relevant to the content of this article. Or: Author A has received research grants from Company W. Author B has received a speaker honorarium from Company X and owns stock in Company Y. Author C is a member of committee Z.
